

For Immediate Release

SGx2020: a series of fast-paced TEDx-style inspirational talks from aerospace innovators and leaders

By Karina Perez Molina

December 4, 2019

Washington D.C.- In partnership with [Future Space Leaders Foundation \(FSLF\)](#) and [SATELLITE 2020](#), SGAC will host its fifth SGx on March 9, 2020, during the SATELLITE Conference and Exhibition. [SGx2020](#) is a technology-focused event that will bring together young professionals, industry experts, and government leaders to discuss pressing issues and innovative ideas in an exciting way. Adding to the excitement, Cas Anvar, from *The Expanse*, a sci-fi series currently broadcasting on Amazon Prime Video will serve as the emcee for SGx.

SGx2020's programming is built to connect the ideas of students and young professionals with the experience and insight of aerospace industry leaders. SGx2020 creates the perfect opportunity for students and young professionals to ask questions and learn from experienced aerospace industry leaders while allowing the experts to engage with the future workforce of the industry.

Join us in a fast-paced and engaging discussion on cutting-edge space and satellite topics!

When: Monday, March 9, from 9:30 a.m to 4:30 p.m.

Where: Walter E. Washington Convention Center, Washington, DC

How: Registration is available online through the SATELLITE registration system: <https://www.xpressreg.net/register/SATE0320/landing.asp?sc=SGXPR>
